Bioprocessing Platform Gas Requirements

1. Introduction and Background

The Technology Innovation Agency (TIA) Bioprocessing Platform, incorporating the Institute of Diagnostics Research (IDR) is a Technology Platform that is envisaged to lower the barriers for innovators and researchers in the National System of Innovation (NSI) to engage in technology innovation. The Bioprocessing Platform delivers technical and infrastructural support to TIA funded and non-TIA funded entities, thereby leading to the development and/or improvement of products, services and processes. Industrial and Specialty gas products are therefore a key requirement to service such functions.

2. Services Required

2.1 Bioprocessing Platform

The Bioprocessing Platform requires that the identified supplier is ISO 9001/SANAS compliant and that all work performed is done in accordance with the Occupational Health and Safety Act (Act 85 of 1993), with attention given to the safety standards listed in Vessels Under Pressure Regulations. The identified supplier is required to provide the following services:

2.1.1 General Gases

- 2.1.1.1 Supply of specified gases as stipulated in Table 1.
- 2.1.1.2 Maintenance/replacement of gas-lines if and when required.
- 2.1.1.3 Supply and servicing of gas regulators as required.

2.1.2 Specialty Gases

- 2.1.2.1 Liquid Nitrogen

2.1.2.2 Supply and maintenance of cryogenic maxi tank (800 L) for onsite storage of liquid nitrogen.

2.1.2.3 Regular re-filling of the maxi tank such that liquid nitrogen levels do not drop below the desired minimum level as specified by the Platform, i.e. 30%.

2.1.2.4 A means of remotely monitoring the liquid nitrogen level such that the service provider knows the level of liquid nitrogen in the tank at any point in time and can schedule re-fills without having to rely on the Platform routinely submitting information.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an

association of **Head Office:** 83 Lois Avenue • Cnr Lois Avenue and Atterbury Road • Menlyn • P O Box 172 • Pretoria • 0063

firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

- a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
- b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
